

Presentation 2021: DIDSr Intern Festival Videos

Summer 2021 Intern Festival Project Videos

FDA/CDRH/OSEL/DIDSr ORISE Fellows: Phoebe Qian, James Setty, JP Philips, and Victor Gardcia

Phoebe Qian and James Setty

Phoebe Qian:

- Phoebe Qian, ORISE Fellow, Rising Junior at Mclean High School
- My current career goal is to work in the field of computer science.
- I created and edited communications and the HTT package and the NCI Hub eeDAP Studies Wiki Space.

James Setty:

- James Setty, ORISE Fellow, Rising Junior School Without Walls HS
- I would like to have a career in the medical field whether that be a doctor or a researcher.

James and Phoebe helped create and edit communication documents for the HTT Project, including the documentation of the newly public HTT Github Repository and this eeDAP Studies NCI Hub Group.

JP Philips

- JP Phillips, ORISE Fellow, Rising Senior at The University of Chicago (Major: Physics, Minor: Statistics)
- Assisting in the development of the caMicroscope and eeDAP platforms for creating MDDT qualified data
- After completing my undergraduate degree, I want to pursue a Ph.D in Medical Physics and eventually work in clinical radiation therapy

Victor Garcia, MD, MS

- Dr. Victor Garcia joins us as a clinical informatics fellow who is board certified in internal medicine.
