Motivation

We are all busy - especially cancer researchers!

Technology is changing quickly & it's hard to keep up!

ITCR developers keep making more awesome software!

Our thought...

Cancer research
could advance
faster if informatics
was more
accessible.

Democratizing informatics holds great power to improve diversity in cancer research

Clinical or translational wet bench scientists

... often want to do more informatics work

How can we make it easier to use/find informatics tools?

The busy bioinformatician

... wants more people to use their tools successfully

... wants to learn how to work with new types of data

How can we help tools reach more people?

I have all these awesome sample data – now to analyze it!

Error: The jargony sounding thing
has encountered a problem

Inefficiency

**Your friendly neighborhood
bioinformatician**

Inefficiency

Cancer informatics is hindered by a gap between different types of experts

itctraining.org/courses

Catalyzing Informatics for Cancer Research

Tool usability

Gap

User preparedness

Our method...

What is the ITN?

ITCR **T**raining **N**etwork

Catalyzing informatics research **through**
training opportunities

itcrtraining.org

Informatics Technology for Cancer Research (ITCR) Training Network

Enhance **usability** for cancer informatics tools

Improve **practices** for informatics work

Enhance **awareness & access** for informatics resources

Elements of ITN:

1. Make courses about informatics

2. Make infrastructure and tools for course creation

3. Provide live education opportunities

Enhance community engagement in cancer research

The ITN Team

PRIMARY FACULTY

CANDACE SAVONEN

Fred Hutchinson Cancer Center

Formerly at Johns Hopkins Bloomberg
School of Public Health

ITCR Content Lead

PRINCIPAL INVESTIGATORS

JEFF LEEK

Fred Hutchinson Cancer Center

Formerly at Johns Hopkins Bloomberg
School of Public Health

Program Director

CARRIE WRIGHT

Fred Hutchinson Cancer Center

Formerly at Johns Hopkins Bloomberg
School of Public Health

PI for Content (former content lead)

ROHAN D. JEREMIAH

University of Illinois at Chicago

PI for Train the Trainer

JEREMY GOECKS

Oregon Health & Science University

PI for Training Events

TRAIN THE TRAINER / CITIZEN SCIENTIST TEAM

MARCUS MURRAY

Project Brotherhood

Community Stakeholder & Executive
Director of Project Brotherhood

LE'CHAUN KENDALL

University of Illinois at Chicago

Research Coordinator

Wanted to reach the **widest**
audience possible!

Wanted to allow **other** scientists to create content!

Wanted updates to be **easy** for us!

Wanted updates to be **easy** for **others!**

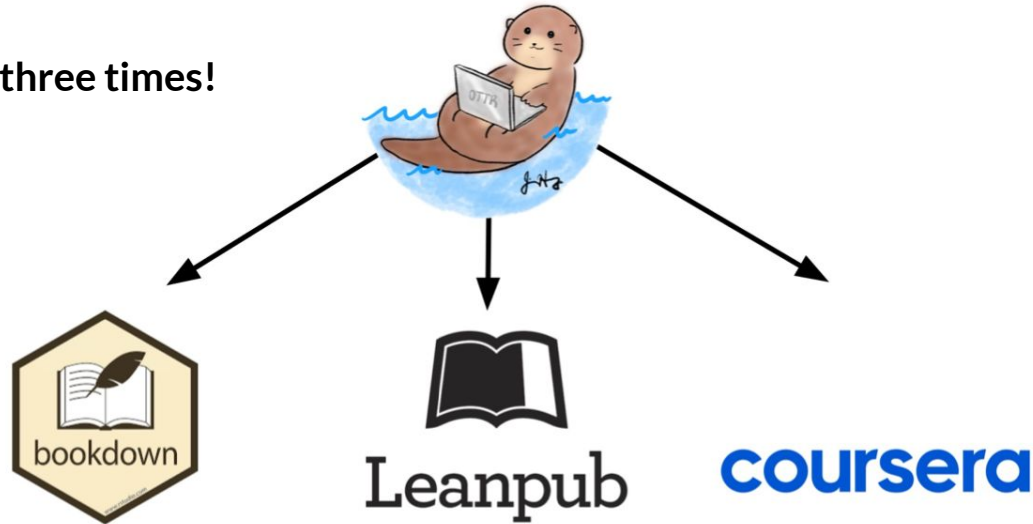

OTTR: Open-source Tools for Training Resources

ottrproject.org

Open-source Tools for Training Resources

Write once publish three times!

Free for learners No login required	Free or fee for learners	Membership fee for learners
No certification	✓ Includes certification of completion	✓ Includes certification of completion
NA	250k monthly active users	82 million registered users

OTTR: Open-source Tools for Training Resources

Templates

So you can conserve your brain power
for content creation!

Methods of writing content

Entry Level

- Completed entirely from the GitHub website
- More “point and click”
- Less GitHub understanding required

Advanced

- Allows more flexibility
- Best for users already familiar with GitHub workflows

Current ITN Classes:

1. Leadership for Cancer Informatics Research
2. Documentation & Usability
3. Computing for Cancer Informatics
4. Introduction to Reproducibility
5. Advanced Reproducibility
6. Ethical Data Handling
7. Choosing Genomics tools
8. Software Development beyond Coding - emphasis on impact/engagement analysis

Want to work with us??

- Contribute to the manuscript/course on methods/challenges of software impact analysis with the TOW
- Take our survey on software impact analysis coming soon!
- Current Positions:
 - Programmer 
 - Content Developer
- Collaborations:
 - Create a course about your tool or a topic of interest using OTTR
 - Help us create the courses we are working on

Email cwright2@fredhutch.org
